

Every Woman Wants a Good Shear

For she often uses a shear for three or four hours at a time and unless they are good her work is very disagreeable.

The very best material that can be had is used in the construction of the WISS SHEAR and they are handled, tempered and finished by workmen who have never done any other work since childhood. Only this experience can produce the quality and finish found in the WISS.

It's a pleasure to use a WISS SHEAR, they cut so smoothly, do not chew the cloth and are always sharp.

WISS SHEARS cost very little more than other shears and they are lots better.

Call at our store and select a pair of WISS SHEARS, Embroidery Scissors or Manicure Scissors and if they are not more satisfactory than any you have ever had return them and we will replace them FREE OF CHARGE.

TIPS.

Classified advertising simplifies your search. Even to "look for a needle in a haystack" would be easier if the haystack were "classified," and the needle placed under the letter "N." And if the needle, like many want ads, were threaded with a golden thread, the quest would be still more attractive.
